Item 4: Advisory Business

Firm Description

Diversified Wealth Management Solutions, LLC (“DWMS”) was founded in 2014. Mark P. Alcorn, Jr. is 100% owner.

Other professionals (e.g., lawyers, accountants, tax preparers, insurance agents, etc.) are engaged directly by the Client on an as-needed basis and may charge fees of their own. Conflicts of interest will be disclosed to the Client in the event they should occur. Under CCR Section 260.238(k), DWMS, its representatives or any of its employees will disclose to the Clients all material conflicts of interest.

Types of Advisory Services

ASSET MANAGEMENT

DWMS offers discretionary and non-discretionary asset management services to advisory Clients. DWMS will offer Clients ongoing asset management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors.

Discretionary

When the Client provides DWMS discretionary authority the Client will sign a limited trading authorization or equivalent. DWMS will have the authority to execute transactions in the account without seeking Client approval on each transaction.

Non-Discretionary

When the Client elects to use DWMS on a non-discretionary basis, DWMS will determine the securities to be bought or sold and the amount of the securities to be bought or sold. However, DWMS will obtain prior Client approval on each and every transaction before executing any transaction.

As part of the recommendations provided, the Client may receive a financial consultation. Financial consulting services typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. We will meet with you to gather information about your financial circumstances and objectives.

If a conflict of interest exists between the interests of DWMS and the interests of the Client, the Client is under no obligation to act upon DWMS’s recommendation. If the Client elects to act on any of the recommendations, the Client is under no obligation to effect the transaction through DWMS. This service will be provided at no additional cost to the Client.

ERISA PLAN SERVICES

DWMS provides service to qualified retirement plans including 401(k) plans, 403(b) plans, pension and profit sharing plans, cash balance plans, and deferred compensation plans. DWMS may act as either a 3(21) or 3(38) advisor:

Limited Scope ERISA 3(21) Fiduciary. DWMS may serve as a limited scope ERISA 3(21) fiduciary that can advise, help and assist plan sponsors with their investment decisions on a non-discretionary basis. As an investment advisor DWMS has a fiduciary duty to act in the best interest of the Client. The plan sponsor is still ultimately responsible for the decisions made in their plan, though using DWMS can help the plan sponsor delegate liability by following a diligent process.

1. Fiduciary Services are:

- Provide non-discretionary investment advice to the Client about asset classes and investment alternatives available for the Plan in accordance with the Plan's investment policies and objectives. Client will make the final decision regarding the initial selection, retention, removal and addition of investment options. DWMS acknowledges that it is a fiduciary as defined in ERISA section 3 (21) (A) (ii).
- Assist the Client in the development of an investment policy statement ("IPS"). The IPS establishes the investment policies and objectives for the Plan. Client shall have the ultimate responsibility and authority to establish such policies and objectives and to adopt and amend the IPS.
- Provide non-discretionary investment advice to the Plan Sponsor with respect to the selection of a qualified default investment alternative for participants who are automatically enrolled in the Plan or who have otherwise failed to make investment elections. The Client retains the sole responsibility to provide all notices to the Plan participants required under ERISA Section 404(c) (5) and 404(a)-5.
- Assist in monitoring investment options by preparing periodic investment reports that document investment performance, consistency of fund management and conformance to the guidelines set forth in the IPS and make recommendations to maintain, remove or replace investment options.
- Meet with Client on a periodic basis to discuss the reports and the investment recommendations.

2. Non-fiduciary Services are:

- Assist in the education of Plan participants about general investment information and the investment alternatives available to them under the Plan. Client understands DWMS's assistance in education of the Plan participants shall be consistent with and within the scope of the Department of Labor's definition of investment education (Department of Labor Interpretive Bulletin 96-1). As such, DWMS is not providing fiduciary advice as defined by ERISA 3(21)(A)(ii) to the Plan participants. Advisor will not provide investment advice concerning the prudence of any investment option or combination of investment options for a particular participant or beneficiary under the Plan.
- Assist in the group enrollment meetings designed to increase retirement plan participation among the employees and investment and financial understanding by the employees.

DWMS may provide these services or, alternatively, may arrange for the Plan's other providers to offer these services, as agreed upon between Advisor and Client.

3. DWMS has no responsibility to provide services related to the following types of assets ("Excluded Assets"):

- Employer securities;
- Real estate (except for real estate funds or publicly traded REITs);
- Stock brokerage accounts or mutual fund windows;
- Participant loans;
- Non-publicly traded partnership interests;

- Other non-publicly traded securities or property (other than collective trusts and similar vehicles); or
- Other hard-to-value or illiquid securities or property.

Excluded Assets will **not** be included in calculation of Fees paid to DWMS on the ERISA Agreement. Specific services will be outlined in detail to each plan in the 408(b)2 disclosure.

ERISA 3(38) Investment Manager. DWMS can also act as an ERISA 3(38) Investment Manager in which it has discretionary management and control of a given retirement plan's assets. DWMS would then become solely responsible and liable for the selection, monitoring and replacement of the plan's investment options.

1. Fiduciary Services are:

- DWMS has discretionary authority and will make the final decision regarding the initial selection, retention, removal and addition of investment options in accordance with the Plan's investment policies and objectives.
- Assist the Client with the selection of a broad range of investment options consistent with ERISA Section 404(c) and the regulations thereunder.
- Assist the Client in the development of an investment policy statement ("IPS"). The IPS establishes the investment policies and objectives for the Plan.
- Provide discretionary investment advice to the Plan Sponsor with respect to the selection of a qualified default investment alternative for participants who are automatically enrolled in the Plan or who have otherwise failed to make investment elections. The Client retains the sole responsibility to provide all notices to the Plan participants required under ERISA Section 404(c) (5).

2. Non-fiduciary Services are:

- Assist in the education of Plan participants about general investment information and the investment alternatives available to them under the Plan. Client understands the DWMS's assistance in education of the Plan participants shall be consistent with and within the scope of the Department of Labor's definition of investment education (Department of Labor Interpretive Bulletin 96-1). As such, the DWMS is not providing fiduciary advice as defined by ERISA to the Plan participants. DWMS will not provide investment advice concerning the prudence of any investment option or combination of investment options for a particular participant or beneficiary under the Plan.
- Assist in the group enrollment meetings designed to increase retirement plan participation among the employees and investment and financial understanding by the employees.

DWMS may provide these services or, alternatively, may arrange for the Plan's other providers to offer these services, as agreed upon between DWMS and Client.

3. DWMS has no responsibility to provide services related to the following types of assets ("Excluded Assets"):

- Employer securities;
- Real estate (except for real estate funds or publicly traded REITs);
- Stock brokerage accounts or mutual fund windows;
- Participant loans;

- Non-publicly traded partnership interests;
- Other non-publicly traded securities or property (other than collective trusts and similar vehicles); or
- Other hard-to-value or illiquid securities or property.

Excluded Assets will **not** be included in calculation of Fees paid to the Adviser on the ERISA Agreement. Specific services will be outlined in detail to each plan in the 408(b)2 disclosure.

Client Tailored Services and Client Imposed Restrictions

The goals and objectives for each Client are documented in our Client files. Investment strategies are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without written Client consent.

Wrap Fee Programs

DWMS does not sponsor any wrap fee programs.

Client Assets under Management

As of December 31, 2021, DWMS has \$32,400,000 in discretionary assets under management and \$6,100,000 in non-discretionary assets under management.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule

ASSET MANAGEMENT

DWMS offers direct asset management services to advisory Clients. Pursuant to CCR Section 260.238(j), lower fees for comparable services may be available from other sources. Total fees to Client will never exceed the safe harbor threshold of 3% of assets under management per year. DWMS charges an annual investment advisory fee based on the total assets under management as follows:

Assets Under Management	Annual Fee	Quarterly Fee
Assets less than \$500,000	1.25%	.3125%
\$500,001 to \$2,000,000	1.00%	.25%
\$2,000,001 to \$5,000,000	0.70%	.175%
\$5,000,001 and above	0.40%	.10%

This is a tiered or breakpoint fee schedule, the entire portfolio is charged the same asset management fee. For example, a Client with \$750,000 under management would pay \$7,500 on an annual basis. $\$750,000 \times 1.00\% = \$7,500$.

The annual fee may be negotiable based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.).

Fees are billed quarterly in advance based on the amount of assets managed as of the close of business on the last business day of the previous quarter. Lower fees for comparable services may be available from other sources. Clients may terminate their account within five (5) business days of signing the Investment Advisory Agreement with no obligation and without penalty. Clients may terminate advisory services with thirty (30) days written notice. For accounts opened or closed mid-billing period, fees will be prorated based on the

days services are provided during the given period. In addition, fees for deposits and withdrawals in excess of \$10,000 will be prorated at the next fee billing. All unpaid earned fees will be due to DWMS. Additionally, all unearned fees will be refunded to the Client. Client shall be given thirty (30) days prior written notice of any increase in fees. Any increase in fees will be acknowledged in writing by both parties before any increase in said fees occurs.

If DWMS is authorized or permitted to deduct fees directly from the account by the custodian:

- DWMS will provide the Client with an invoice concurrent to instructing the custodian to deduct the fee stating the amount of the fee, the formula used to calculate the fee, the amount of assets under management the fee is based on and the time period covered by the fee;
- DWMS will obtain written authorization signed by the Client allowing the fees to be deducted; and
- The Client will receive quarterly statements directly from the custodian which disclose the fees deducted.

ERISA PLAN SERVICES

The annual fees are based on the market value of the Included Assets and will not exceed 1%. Fees may be charged quarterly or monthly in arrears or in advance based on the assets as calculated by the custodian or record keeper of the Included Assets (without adjustments for anticipated withdrawals by Plan participants or other anticipated or scheduled transfers or distribution of assets). If the services to be provided start any time other than the first day of a quarter or month, the fee will be prorated based on the number of days remaining in the quarter or month. If this Agreement is terminated prior to the end of the billing cycle, DWMS shall be entitled to a prorated fee based on the number of days during the fee period services were provided or Client will be due a prorated refund of fees for days services were not provided in the billing cycle.

The fee schedule, which includes compensation of DWMS for the services is described in detail in Schedule A of the ERISA Plan Agreement. The Plan is obligated to pay the fees, however the Plan Sponsor may elect to pay the fees. Client may elect to be billed directly or have fees deducted from Plan Assets. DWMS does not reasonably expect to receive any additional compensation, directly or indirectly, for its services under this Agreement. If additional compensation is received, DWMS will disclose this compensation, the services rendered, and the payer of compensation. DWMS will offset the compensation against the fees agreed upon under the Agreement.

Client Payment of Fees

Investment management fees are billed quarterly in advance, meaning that we invoice you before the billing period. Fees are usually deducted from a designated Client account to facilitate billing. The Client must consent in advance to direct debiting of their investment account.

DWMS, in its sole discretion, may charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.).

Additional Client Fees Charged

Custodians may charge transaction fees on purchases or sales of certain mutual funds, equities, and exchange-traded funds. These charges may include mutual fund transaction fees, postage and handling and miscellaneous fees.

For more details on the brokerage practices, see Item 12 of this brochure.

Prepayment of Client Fees

DWMS does not require any prepayment of fees of more than \$500 per Client and six months or more in advance.

Investment management fees are billed quarterly in advance.

Fees for ERISA 3(21) services may be billed in advance.

If the Client cancels after five (5) business days, any unearned fees will be refunded to the Client, or any unpaid earned fees will be due to DWMS.

External Compensation for the Sale of Securities to Clients

Investment Advisor Representatives of DWMS receive external compensation sales of investment related products such as insurance as licensed insurance agents. From time to time, they will offer clients services from those activities. Less than 3% of Mark P. Alcorn, Jr.'s compensation is from external compensation.

This represents a conflict of interest because it gives an incentive to recommend products based on the commission received. As an insurance agent, do not charge advisory fees for the services offered through insurance carriers. This conflict is mitigated by disclosures, procedures, and the firm's fiduciary obligation to place the best interest of the Client first and Clients are not required to purchase any products or services. Clients have the option to purchase these products through another insurance agent of their choosing.

Item 6: Performance-Based Fees and Side-by-Side Management

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

DWMS does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for DWMS to recommend an investment that may carry a higher degree of risk to the Client.

Item 7: Types of Clients

Description

DWMS generally provides investment advice to individuals, charitable organizations, corporations and state or municipal entities.

Client relationships vary in scope and length of service.

Account Minimums

In general, we do not require a minimum dollar amount to open and maintain an advisory account; however, we reserve the right to terminate your Account if it falls below a minimum size which, in our sole opinion, is too small to effectively manage.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, charting, cyclical analysis and modern portfolio theory. Investing in securities involves risk of loss that Clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

Charting analysis strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are twofold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

Modern Portfolio Theory (MPT) is a theory of investment which attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, by carefully diversifying the proportions of various assets. Market risk is that part of a security's risk that is common to all securities of the same general class (stocks and bonds) and thus cannot be eliminated by diversification.

The main sources of information include financial newspapers and magazines, annual reports, prospectuses, and filings with the Securities and Exchange Commission.

Investment Strategy

The investment strategy for a specific Client is based upon the objectives stated by the Client during consultations. The Client may change these objectives at any time by providing written notice to DWMS. Each Client executes a Client profile form or similar form that documents their objectives and their desired investment strategy.

Other strategies may include long-term purchases, short-term purchases.

Security Specific Material Risks

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with DWMS:

- *Market Risk:* The prices of securities held by mutual funds in which Clients invest may decline in response to certain events taking place around the world, including

those directly involving the companies whose securities are owned by a fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. Investors should have a long-term perspective and be able to tolerate potentially sharp declines in market value.

- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.
- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Management Risk:* The advisor's investment approach may fail to produce the intended results. If the advisor's assumptions regarding the performance of a specific asset class or fund are not realized in the expected time frame, the overall performance of the Client's portfolio may suffer.
- *Equity Risk:* Equity securities tend to be more volatile than other investment choices. The value of an individual mutual fund or ETF can be more volatile than the market as a whole. This volatility affects the value of the Client's overall portfolio. Small and mid-cap companies are subject to additional risks. Smaller companies may experience greater volatility, higher failure rates, more limited markets, product lines, financial resources, and less management experience than larger companies. Smaller companies may also have a lower trading volume, which may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies.
- *Fixed Income Risk:* The issuer of a fixed income security may not be able to make interest and principal payments when due. Generally, the lower the credit rating of a security, the greater the risk that the issuer will default on its obligation. If a rating agency gives a debt security a lower rating, the value of the debt security will decline because investors will demand a higher rate of return. As nominal interest rates rise, the value of fixed income securities held by a fund is likely to decrease. A nominal interest rate is the sum of a real interest rate and an expected inflation rate.
- *Investment Companies Risk:* When a Client invests in open end mutual funds or ETFs, the Client indirectly bears their proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment

practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value or (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Adviser has no control over the risks taken by the underlying funds in which Client invests.

- *Long-term purchases:* Long-term investments are those vehicles purchased with the intension of being held for more than one year. Typically the expectation of the investment is to increase in value so that it can eventually be sold for a profit. In addition, there may be an expectation for the investment to provide income. One of the biggest risks associated with long-term investments is volatility, the fluctuations in the financial markets that can cause investments to lose value.
- *Short-term purchases:* Short-term investments are typically held for one year or less. Generally there is not a high expectation for a return or an increase in value. Typically, short-term investments are purchased for the relatively greater degree of principal protection they are designed to provide. Short-term investment vehicles may be subject to purchasing power risk — the risk that your investment's return will not keep up with inflation.
- *Trading risk:* Investing involves risk, including possible loss of principal. There is no assurance that the investment objective of any fund or investment will be achieved.

Item 9: Disciplinary Information

Criminal or Civil Actions

DWMS and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

DWMS and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

DWMS and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of DWMS or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer or Representative Registration

DWMS is not registered as a broker-dealer and no affiliated representatives of DWMS are registered representatives of a broker-dealer.

Futures or Commodity Registration

Neither DWMS nor its affiliated representatives are registered or have an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

Material Relationships Maintained by this Advisory Business and Conflicts of Interest

Managing Member Mark P. Alcorn, Jr. has a financial affiliated business as an independent insurance agent. Less than 3% of his time is spent on these activities. He will offer Clients

services from those activities. As an insurance agent, he may receive separate yet typical compensation.

These practices represent conflicts of interest because it gives an incentive to recommend products based on the commission amount received. This conflict is mitigated by disclosures, procedures and the firm's fiduciary obligation to place the best interest of the Client first and the Clients are not required to purchase any products. Clients have the option to purchase these products through another insurance agent of their choosing.

Recommendations or Selections of Other Investment Advisors and Conflicts of Interest

DWMS does not select or recommend other investment advisors.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics Description

The affiliated persons (affiliated persons include employees and/or independent contractors) of DWMS have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of DWMS affiliated persons and addresses conflicts that may arise. The Code defines acceptable behavior for affiliated persons of DWMS. The Code reflects DWMS and its supervised persons' responsibility to act in the best interest of their Client.

One area which the Code addresses is when affiliated persons buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our Clients. We do not allow any affiliated persons to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our Clients.

DWMS's policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other employee, officer or director of DWMS may recommend any transaction in a security or its derivative to advisory Clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

DWMS's Code is based on the guiding principle that the interests of the Client are our top priority. DWMS's officers, directors, advisors, and other affiliated persons have a fiduciary duty to our Clients and must diligently perform that duty to maintain the complete trust and confidence of our Clients. When a conflict arises, it is our obligation to put the Client's interests over the interests of either affiliated persons or the company.

The Code applies to "access" persons. "Access" persons are affiliated persons who have access to non-public information regarding any Clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to Clients, or who have access to such recommendations that are non-public.

DWMS will provide a copy of the Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflict of Interest

DWMS and its affiliated persons do not recommend to Clients securities in which we have a material financial interest.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

DWMS and its affiliated persons may buy or sell securities that are also held by Clients. In order to mitigate conflicts of interest such as trading ahead of Client transactions, affiliated persons are required to disclose all reportable securities transactions as well as provide DWMS with copies of their brokerage statements.

The Chief Compliance Officer of DWMS is Mark P. Alcorn, Jr. He reviews all trades of the affiliated persons each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

DWMS does not maintain a firm proprietary trading account and does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, affiliated persons may buy or sell securities at the same time they buy or sell securities for Clients. In order to mitigate conflicts of interest such as front running, affiliated persons are required to disclose all reportable securities transactions as well as provide DWMS with copies of their brokerage statements.

The Chief Compliance Officer of DWMS is Mark P. Alcorn, Jr. He reviews all trades of the affiliated persons each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

DWMS may recommend the use of a particular broker-dealer such as TD Ameritrade Institutional is a Division of TD Ameritrade, Inc., Member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member or may utilize a broker-dealer of the Client's choosing. DWMS will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees and reporting ability. DWMS relies on its broker to provide its execution services at the best prices available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by DWMS.

DWMS participates in the TD Ameritrade Institutional program. TD Ameritrade is an independent SEC-registered broker-dealer and is not affiliated with DWMS. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance and settlement of transactions. DWMS receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14).

- *Directed Brokerage*

In circumstances where a Client directs DWMS to use a certain broker-dealer, DWMS still has a fiduciary duty to its Clients. The following may apply with Directed Brokerage: DWMS's inability to negotiate commissions, to obtain volume discounts, there may be a disparity in commission charges among Clients and conflicts of interest arising from brokerage firm referrals. The firm may be unable to achieve

most favorable execution of client transactions, and this practice may cost clients more money.

- *Best Execution*
Investment advisors who manage or supervise Client portfolios have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is affected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. DWMS does not receive any portion of the trading fees.
- *Soft Dollar Arrangements*
The Securities and Exchange Commission defines soft dollar practices as arrangement under which products or services other than execution services are obtained by DWMS from or through a broker-dealer in exchange for directing Client transactions to the broker-dealer. As permitted by Section 28(e) of the Securities Exchange Act of 1934, DWMS receives economic benefits as a result of commissions generated from securities transactions by the broker-dealer from the accounts of DWMS. These benefits include both proprietary research from the broker and other research written by third parties.

A conflict of interest exists when DWMS receives soft dollars. This conflict is mitigated by the fact that DWMS has a fiduciary responsibility to act in the best interest of its Clients and the services received are beneficial to all Clients.

DWMS utilizes the services of custodial broker dealers. Economic benefits are received by DWMS which would not be received if DWMS did not give investment advice to Clients. These benefits include: A dedicated trading desk, a dedicated service group and an account services manager dedicated to DWMS's accounts, ability to conduct "block" Client trades, electronic download of trades, balances and positions, duplicate and batched Client statements, and the ability to have advisory fees directly deducted from Client accounts.

Aggregating Securities Transactions for Client Accounts

DWMS is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of DWMS. All Clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account reviews are performed quarterly by the Chief Compliance Officer of DWMS. Account reviews are performed more frequently when market conditions dictate. Reviews of Client accounts include, but are not limited to, a review of Client documented risk tolerance, adherence to account objectives, investment time horizon, and suitability criteria, reviewing target bands of each asset class to identify if there is an opportunity for rebalancing, and reviewing accounts for tax loss harvesting opportunities.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of Clients' accounts are changes in the tax laws, new investment information, and changes in a Client's own situation.

Content of Client Provided Reports and Frequency

Clients receive written account statements no less than quarterly for managed accounts. Account statements are issued by DWMS's custodian. Client receives confirmations of each transaction in account from Custodian and an additional statement during any month in which a transaction occurs.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

As disclosed under Item 12 above, DWMS participates in TD Ameritrade's institutional customer program and DWMS may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between DWMS's participation in the program and the investment advice it gives to its Clients, although DWMS receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving DWMS participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to DWMS by third party vendors.

TD Ameritrade may also have paid for business consulting and professional services received by DWMS's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit DWMS but may not benefit its Client accounts. These products or services may assist DWMS in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help DWMS manage and further develop its business enterprise. The benefits received by DWMS or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to Clients, DWMS endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by DWMS or its related persons in and of itself creates a conflict of interest and may indirectly influence the DWMS's choice of TD Ameritrade for custody and brokerage services.

Advisory Firm Payments for Client Referrals

DWMS does not compensate for Client referrals.

Item 15: Custody

Account Statements

All assets are held at qualified custodians, which means the custodians provide account

statements directly to Clients at their address of record at least quarterly. Clients are urged to compare the account statements received directly from their custodians to any documentation or reports prepared by DWMS.

DWMS is deemed to have limited custody solely because advisory fees are directly deducted from Client's accounts by the custodian on behalf of DWMS.

Item 16: Investment Discretion

Discretionary Authority for Trading

If applicable, Client will authorize DWMS discretionary authority, via the advisory agreement, to determine, without obtaining specific Client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold. If applicable, Client will authorize DWMS discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement. If however, consent for discretion is not given, DWMS will obtain prior Client approval before executing each transaction.

DWMS allows Client's to place certain restrictions, as outlined in the Client's Investment Policy Statement or similar document. Such restrictions could include only allowing purchases of socially conscious investments. These restrictions must be provided to DWMS in writing.

The Client approves the custodian to be used and the commission rates paid to the custodian. DWMS does not receive any portion of the transaction fees or commissions paid by the Client to the custodian.

Item 17: Voting Client Securities

Proxy Votes

DWMS does not vote proxies on securities. Clients are expected to vote their own proxies. The Client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, DWMS will provide recommendations to the Client. If a conflict of interest exists, it will be disclosed to the Client.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided because DWMS does not serve as a custodian for Client funds or securities and DWMS does not require prepayment of fees of more than \$500 per Client and six months or more in advance.

Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

DWMS has no condition that is reasonably likely to impair our ability to meet contractual commitments to our Clients.

Bankruptcy Petitions during the Past Ten Years

DWMS has not had any bankruptcy petitions in the last ten years.

Item 19: Requirements for State Registered Advisors

Principal Executive Officers and Management Persons

The education and business background for all management and supervised persons can be found in the Part 2B of this Brochure.

Outside Business Activities

The outside business activities for all management and supervised persons can be found in the Part 2B of this Brochure.

Performance Based Fee Description

Neither DWMS nor its management receive performance based fees. Please see Item 6 of the ADV 2A for more information.

Disclosure of Material Facts Related to Arbitration or Disciplinary Actions Involving Management Persons

Brochure Supplement (Part 2B of Form ADV) Supervised Person Brochure

Principal Executive Officer – Mark P. Alcorn, Jr.

- Year of birth: 1980
-

Item 2 - Educational Background and Business Experience

Educational Background:

- University of California, Santa Barbara; Bachelor of Arts in Mathematics/Economics; 2004

Professional Certifications

Mark P. Alcorn, Jr. has earned certifications and credentials that are required to be explained in further detail.

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial

planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients. CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Item 3 - Disciplinary Information

- A. Mark P. Alcorn, Jr. has never been involved in a criminal or civil action in a domestic, foreign or military court of competent jurisdiction for which he:
1. Was convicted of, or pled guilty or nolo contendere (“no contest”) to (a) any felony; (b) misdemeanor that involved investments or an investment-related business, fraud, false statement or omissions, wrongful taking of property, bribery, perjury, counterfeiting, or extortion; or (c) a conspiracy to commit any of these offenses;
 2. Is the named subject of a pending criminal proceeding that involves an investment-related business, fraud, false statements or omissions, wrongful taking of property, bribery, perjury, forgery, counterfeiting, extortion, or a conspiracy to commit any of these offenses;
 3. Was found to have been involved in a violation of an investment-related statute or regulation; or
 4. Was the subject of any order, judgement or decree permanently or temporarily enjoining, or otherwise limiting, him from engaging in any investment related activity, or from violating any investment-related statute, rule, or order.
- B. Mark P. Alcorn, Jr. never had an administrative proceeding before the SEC, any other federal regulatory agency, any state regulatory agency, or any foreign financial regulatory authority in which he:
1. Was found to have caused an investment-related business to lose its authorization to do business; or the subject of an order by the agency or authority;

2. Was found to have been involved in a violation of an investment-related statute or regulation or was the subject of an order by the agency or authority
 - (a) denying, suspending or revoking the authorization of the supervised person to act in an investment-related business; (b) barring or suspending his association with an investment-related business; (c) otherwise significantly limiting his investment-related activities; or (d) imposing a civil money penalty of more than \$2,500 on him.

C. Mark P. Alcorn, Jr. has never been the subject of a self-regulatory organization (SRO) proceeding in which he:

1. Was found to have caused an investment-related business to lose its authorization to do business; or
2. Was found to have been involved in a violation of the SRO's rules and was: (a) barred or suspended from membership or from association with other members, or was expelled from membership; (b) otherwise significantly limited from investment-related activities; or (c) fined more than \$2,500.

D. Mark P. Alcorn, Jr. has not been involved in Any other hearing or formal adjudication in which a professional attainment, designation, or license of the supervised person was revoked or suspended because of a violation of rules relating to professional conduct.

Item 4 - Other Business Activities Engaged In

Managing Member Mark P. Alcorn, Jr. has a financial affiliated business as an independent insurance agent. Less than 3% of his time is spent on these activities. He will offer Clients services from those activities. As an insurance agent, he may receive separate yet typical compensation.

These practices represent conflicts of interest because it gives an incentive to recommend products based on the commission amount received. This conflict is mitigated by disclosures, procedures and the firm's fiduciary obligation to place the best interest of the Client first and the Clients are not required to purchase any products. Clients have the option to purchase these products through another insurance agent of their choosing.

Item 5 - Additional Compensation

Mark P. Alcorn, Jr. receives commissions on the insurance products he sells. He does not receive any performance based fees.

Item 6 - Supervision

Since Mark P. Alcorn, Jr. is the sole owner and investment adviser representative of DWMS he is solely responsible for all supervision and formulation and monitoring of investment advice offered to Clients. He will adhere to the policies and procedures as described in the firm's Compliance Manual. He can be reached at markalcorn@diversifiedwms.com or 559-412-8492.

Item 7 - Requirements for State-Registered Advisors

A. Mark P. Alcorn, Jr. has not been involved in any of the following:

1. An arbitration claim alleging damages in excess of \$2,500 involving any of the following:
 - a) An investment or an investment-related business or activity;
 - b) Fraud, false statement(s) or omissions;
 - c) Theft, embezzlement or other wrongful taking of property;

- d) Bribery, forgery, counterfeiting, or extortion;
 - e) Dishonest, unfair or unethical practices.
2. Been found liable in a civil, self-regulatory organization, or administrative proceeding involving any of the following:
- a) An investment or an investment-related business or activity;
 - b) Fraud, false statement(s) or omissions;
 - c) Theft, embezzlement or other wrongful taking of property;
 - d) Bribery, forgery, counterfeiting, or extortion;
 - e) Dishonest, unfair or unethical practices.
- B. Mark P. Alcorn, Jr. has never been the subject of a bankruptcy petition.
